

CAR LEASING WITH SMARTSALARY

SmartSalary have been managing salary packaging for employees for some time now and Mercy Health and Aged Care Central Queensland Ltd have now made the option of motor vehicle leasing available, to eligible employees, through SmartSalary. SmartSalary are holding information sessions in Gladstone, Yeppoon and Rockhampton in October with details about when and where being made available soon. SmartSalary will conduct sessions in Mackay and Bundaberg later in the year.

Employees must be permanent, either full-time or part-time, to be eligible to lease a motor vehicle through SmartSalary.

Here is what SmartSalary say about car leasing in terms of how it can benefit you and how they assist (taken from www.smartsalary.com.au):

Car leasing and extras

You can save a bundle when you package your next car. Not only are the lease repayments out of your pre-tax salary, you can also package the running costs such as fuel, maintenance, registration and insurance. You could save thousands.

How it works

First, get our specialist car leasing team to arrange your car and finance - or do it yourself, and tell us the details.

Either way, once we have the details:

- we arrange for your employer to set aside an amount from your salary for your regular lease repayments
- then use those pre-tax dollars to pay the lease company.

Your lease is an on-going payment - once you give us the go-ahead, we'll keep making the payment for the term of your lease, or until you tell us to stop.

SmartSalary Car Leasing

We're your one-stop shop. Our specialist team at SmartSalary Car Leasing can take care of everything for you. We'll source your car, organise finance and set up your package. Plus, we'll make sure you have all the extras you want - like insurance, extended warranty and roadside assistance – included in your package.

We also offer an exclusive Vehicle Management Program (VMP), which gives you:

- up to 30% off vehicle servicing at selected outlets Australia wide
- a choice of fuel cards
- and much much more.

What you need to know

Packaged cars are subject to fringe benefits tax (FBT) and the amount of FBT you pay will be dependent on the distance you drive each year.

If you are interested in considering car leasing attend a session coming soon or call SmartSalary on 1300 730 366.

NOTE: Mercy Health and Aged Care Central Queensland Ltd do not accept any responsibility for liabilities incurred as a result of an employee's decision to lease a vehicle through SmartSalary.
